Hi Erin,

Attached is the Cumulative Effects Analysis document I prepared for the Dewey-Burdock areas permits.

Ex. 5 AC/DP

I am going to review the comments on this document again to see if there are any other areas where the path I need to take is unclear. I will share these comments with you once I have them pulled together.

Thanks for looking at this document! I have also included a table of contents that I will be adding to the front of the document.

Hi Valois – Erin was curious about the latest draft CEA. Can you send her the proposed? Again, I don't necessarily want her be tagged as the lead on it, since it's not really a NEPA issue, but we will likely rely on her heavily since there is no case law or other guidance in the UIC context.

Thanks, Lucita
